

80 Questions

Que. 1 Direction: read the following information carefully to answer the question given below,

There are eight persons: M, N, O, P, X, Y, Z and R, they all are sitting around a circular table. Some of them are facing towards the center of the table while some of them are facing opposite to center of table but not necessarily in the same way. M sits third to the left of Z. Only one person sits between O and R. M sits third to the right of R. Y sits second to right of M. N sits immediate right of P. N is not immediate neighbor of Z. O sits second to right of N and both of them faces same direction. Y faces away from the Center. Y faces direction Opposite to Z (i.e. if Z is facing outside then Y must be facing inside, and vice-versa). X and Z faces the same direction.

Who sits second to the right of R?

1. O
2. P
3. M
4. N
5. Z

Correct Option - 1

Que. 2 Who sits to the immediate left of Z?

1. N
2. M
3. R
4. P
5. Y

Correct Option - 4

Que. 3 Who sits opposite to M?

1. O
2. R
3. Y
4. X
5. Z

Correct Option - 4

Que. 4 Who sits exactly between R and O?

1. X
2. M
3. N
4. Y
5. Z

Correct Option - 4

Que. 5 Who sits opposite to P?

1. P
2. M
3. N
4. Y
5. O

Correct Option - 4

Que. 6 How many such pairs of letters are there in the word 'REFRIGERATOR', each of which has as many letters between them in the word (both forward and backward direction) as they have between them in the English Alphabet

1. Four
2. Five
3. Two
4. Three
5. More than five

Correct Option - 2

Que. 7 If it is possible to make only one meaningful English word with the the fourth, the sixth, seventh and the eighth letters of the word REACTION, which of the following will be the second letter of that word? If no such word can be made give 'X' as the answer and if more than one such word can be made give 'Y' as the answer.

1. N
2. I
3. O
4. X
5. Y

Correct Option - 5

Que. 8 Direction: Study the following information to answer the given questions:

Eight persons A, B, C, D, E, F, G and H attended a meeting in different months among January, April, May and July but not necessarily in same order. Each of them attended on either 13th or 22nd of the month. Each of them attended in the same year. No two persons attended on the same date of same month. Two persons attended meeting between A and G. Same number of persons attended meeting before D as that of after F. C attended on 13th of the month having least number of days. At least three persons attended meeting between C and H. A attended meeting on an even date before G. Two persons attended between F and E.

Who attended the meeting on 22nd January?

1. A
2. B
3. C
4. D
5. E

Correct Option - 1

1. G attended meeting in May
2. Three people attended meeting between A and B
3. D attended meeting in the month having 31 days
4. C attended meeting exactly one month after F
5. All are true

Correct Option - 4

Que. 10 Four of the following are the same in a certain way thus forms a group. Which among the following does not belong to the group?

1. F - A
2. E - B
3. C - E
4. G - B
5. H - D

Correct Option - 2

Que. 11 Exactly how many months after E, D attended the meeting?

1. One
2. Two
3. Three
4. More than three
5. None of these

Correct Option - 3

Que. 12 On which date the person who attended the meeting just before E, attended the meeting?

1. 13th April
2. 22nd January
3. 13th January
4. 22nd April
5. 13th July

Correct Option - 1

Que. 13 Directions: A family has seven members namely A, B, C, D, E, F, and G. they are related to each other in the following manner.

F is the only son of A who has three children. C is married to A. E is the maternal aunt of B who is married to D. A and G were of the same gender. Either both or none of the parents are alive.

How is F related to D?

1. Sister-in-law
2. Brother-in-law
3. Nephew
4. Son
5. None of these

Correct Option - 2

Que. 14 How is D related to A?

1. Daughter
2. Son
3. Son-in-law
4. Daughter-in-law
5. Brother-in-law

Correct Option - 3

Que. 15 How is G related to E?

1. niece
2. nephew
3. sister
4. brother-in-law
5. brother

Correct Option - 1

Que. 16 Direction: Study the information given below carefully and answer the question that follows.

A certain number of persons are sitting in a row facing south direction. Not more than Eighteen persons are sitting in the row. Only one person sits between P and Q. R sits fourth to the left of P. Five persons sit between R and S. Four persons sit between S and T. Not more than six persons sit to the right of S. Number of persons sit between P and T is same as the number of persons sit between Q and U. Q sits to the right of U. Three persons sit between U and V. V sits to the immediate left of R. T and U are not sitting second from the extreme ends of the row.

If A sits exactly between S and P, then what is position of R with respect to A?

1. 4th to the left
2. 3rd to the right
3. immediate right
4. 5th to the left
5. None of the above

Correct Option - 4

Que. 17 Who sits 3rd to the right of V?

1. R
2. T
3. Q
4. U
5. None of the above

Correct Option - 3

Que. 18 How many persons are sitting in a row?

1. 17
2. 15 18 16 None of
3. the above
- 4.
- 5.

Correct Option - 1

Que. 19 Who sits at left end of the row?

1. R
2. U
3. P
4. V
5. S

Correct Option - 2

Que. 20 Who among the following sits at the extreme ends of the row?

1. P
2. Q
3. T
4. Can't be determined
5. V

Correct Option - 3

Que. 21 Direction: In the following question assuming the given statements to be true, find which of the conclusion(s) among given conclusions is/are definitely true and then give your answers accordingly.

Statement: $E < F \leq G > H \geq K$

Conclusions:

I. $F > H$

II. $G < E$

1. Only conclusion I is true
2. Only conclusion II is true
3. Either conclusion I or II is true
4. Both conclusions I and II are true
5. Neither conclusion I nor II is true

Correct Option - 5

Que. 22 Directions: In the following question assuming the given statements to be true, find which conclusion among the given conclusions is/are definitely true and then give your answers accordingly.

Statement:

$S \leq L \leq I = P > E > R; R > Q$

Conclusions:

I. $P \geq S$

II. $I > R$

1. Only I is True
2. Only II is True
3. Either I or II is true
4. Both conclusions I and II are True
5. None is True

Correct Option - 4

Que. 23 Directions: In the following question assuming the given statements to be true, find which conclusion among the given conclusions is/are definitely true and then give your answers accordingly.

Statements: $M < A \geq G = N$; $E \leq T = I \leq S \leq M$

Conclusion:

I. $T < M$

II. $T = M$

1. Only conclusion I is true
2. Only conclusion II is true
3. Both conclusions I and II are true
4. Either conclusion I or conclusion II is true
5. None of the conclusion is true

Correct Option - 4

Que. 24 Directions: In the following question assuming the given statements to be true, find which conclusion among the given conclusions is/are definitely true and then give your answers accordingly.

Statement:

$A \leq B \leq C = D > E > F$; $F > G$

Conclusions:

I. $D > G$

II. $E = G$

1. Only I is True
2. Only II is True
3. Either I or II is true
4. Both conclusions I and II are True
5. None is True

Correct Option - 1

Que. 25 Directions: In the following question assuming the given statements to be true, find which of the conclusion among given conclusions is/are definitely true and then give your answers accordingly.

Statement:

$J \geq L > A = N \leq D$; $L < K < H$

Conclusions:

I. $J > N$

II. $K < J$

1. Only conclusion I is True
2. Only conclusion II is True
3. Either conclusion I or II is true
4. Both conclusions I and II are True
5. None is True

Correct Option - 1

Que. 26 Direction: Study the given information carefully and answer the following questions.

Ten boxes with names P, Q, R, S, T, U, V, W, X and Y are placed one above the other in any particular order. Box number 1 is at the top and box number 10 is at the bottom. There are two boxes kept between Y and T. Box R is at the bottom. There are three boxes between box Q and box T. Box P is placed between the box V and box S. The number of boxes between R and X is same as number of boxes between X and T. Box X is at 8th number position. Box Q is immediate below U and above V. Box W is not at even position.

Which Box is at the top?

1. U
2. T
3. W
4. V
5. Q

Correct Option - 1

Que. 27 Which of the following box is at position number 5?

1. U
2. T
3. Q
4. S
5. V

Correct Option - 4

Que. 28 Which of the following box is placed between box T and box X?

1. Q
2. W
3. Y
4. P
5. S

Correct Option - 2

Que. 29 What is the box number of box W?

1. Five
2. Six
3. Four
4. Two
5. Seven

Correct Option - 5

Que. 30 If U is related to V and P is related to T in certain way, then W is related to which of the following box?

1. S
2. R
3. T
4. X
5. Y

Correct Option - 5

Que. 31 Direction: Study the information given below carefully and answer the questions that follow.

Sara goes 10 km South from the Market, takes a right turn and goes 24 km to meet Karan. She then goes 15 km North and meets Shaan. She then turns right and goes 30 km to meet Parush. She further goes 9 km South to reach her house and stops there.

What is the shortest distance between Shaan and Sara's House?

1. $3\sqrt{105}$ km
2. $2\sqrt{109}$ km
3. $3\sqrt{107}$ km
4. $3\sqrt{109}$ km
5. $2\sqrt{107}$ km

Correct Option - 4

Que. 32 What is the shortest distance between the market and Karan?

1. 26 km
2. 25 km
3. $26\sqrt{2}$ km
4. $24\sqrt{2}$ km
5. 27 km

Correct Option - 1

Que. 33 Direction: In the question below are given some statements followed by some conclusions. You have to take given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

No Cup is Spoon
Only few Spoons are Tiffin
Some Plates are Cup and spoon

Conclusions:

- I. All Plates are Tiffin
 - II. Some Tiffin are Spoons
1. Only conclusion I follow
 2. Only conclusion II follows
 3. Either conclusion I or II follows
 4. Neither conclusion I nor II follows
 5. Both conclusions I and II follows

Correct Option - 2

Que. 34 Direction: In the question below are given some statements followed by some conclusions. You have to take given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Only few Black is White

Only Blue are Red

Some White is blue

Conclusions:

I. Some Blue is White

II. Some White is Black

1. Only conclusion I follow
2. Only conclusion II follows
3. Either conclusion I or II follows
4. Neither conclusion I nor II follows
5. Both conclusions I and II follows

Correct Option - 5

Que. 35 Direction: In the question below are given some statements followed by some conclusions. You have to take given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Only few Apple are Orange

Some Grapes are Oranges

Some Mangoes are Grapes

Conclusions: I. Some Apples

are Mangoes II. Some

Oranges are Grapes

1. Only conclusion I follow
2. Only conclusion II follows
3. Either conclusion I or II follows
4. Neither conclusion I nor II follows
5. Both conclusions I and II follow

Correct Option - 2

Que. 36 Directions: Read the following information and answer the given questions:

Seven persons P, Q, R, S, T, U and V are seated in a row facing North. Each of them likes different colours: Blue, Red, Yellow, Pink, Green, Purple and Orange. But not necessarily in the same order. Four people sits between T and the one who likes Red. The one who likes Red colour sits at one of the extreme ends of the Row. R who likes Yellow colour sits to the immediate left of T. Two persons sits between R and the one who likes Blue colour. Neither P nor Q is an immediate neighbour of the one who likes Blue colour. P does not sit at the end of the row. U who likes Green colour is an immediate neighbour of P. One person sits between U and the one who likes Pink colour. S does not like Pink colour. T does not like Orange colour. Q does not like the blue colour.

Which colour does V likes?

1. Purple
2. Orange
3. Pink Blue
4. None of these
- 5.

Correct Option - 3

Que. 37 Who likes Orange Colour?

1. T
2. Q
3. S
4. P
5. None of these

Correct Option - 4

Que. 38 How many persons are sitting between R and the one who likes Green colour?

1. 4
2. 3 5 1 None of
3. these
- 4.
- 5.

Correct Option - 2

Que. 39 Who is sitting between S and P?

1. U
2. R V T None of
3. these
- 4.
- 5.

Correct Option - 1

Que. 40 Which of the following condition is true?

1. Q- Orange
2. P- Red
3. S- Pink
4. T- Purple
5. None of these

Correct Option - 4

Que. 41 What approximate value should come in place of the question mark (?) in the following question?

$$\sqrt{168.99 \times 10.01 - 2.99 \times ?} = (7.04)^2$$

1. 21
2. 24
3. 27
4. 30
5. 33

Correct Option - 3

Que. 42 What should come in place of question mark in the following question ?

$$864.02 \div 3.99 + 38.05 \div 18.98 \times 110.01 = ?$$

1. 330

2. 45
3. 2
4. 39
5. 5

Correct Option - 4

6

Que. 43³³ What approximate value should come in the place of question mark (?) in the following question?

4 $936.43 \div 13 \div 3.99 \times 12 - 13.48 \times 13.33 = ?$

1. 4
2. 7
3. 6
4. 4
5. 5

Correct Option - 1

2

Que. 44³ What should come in place of question mark in the following question ?

3 $(63.99)^{1/3} \times 124.989 + 407.05 \div 10.98 = ?$

1. 537
2. 425
3. 754
4. 224
5. 256

Correct Option - 1

Que. 45 What approximate will come in the place of the question mark '?' in the following question?

$(23.42 + 17.43) \div 2 \times 4 - 48.25 + 643.86 = ?$

1. 52
2. 1
3. 63
4. 4
5. 59

Correct Option - 4

67

Que. 46⁶ In the given question, two equations numbered I and II are given. You have to solve both the equations and mark the appropriate answer

I. $x^2 - 1x + 20 = 0$

II. $y^2 - 13y + 42 = 0$

1. $x > y$
2. $x \geq y$
3. $x < y$
4. $x \leq y$
5. $x = y$ or the relation cannot be determined

Correct Option - 3

Que. 47 In the given question, two equations numbered I and II are given. You have to solve both the equations and mark the appropriate answer-

I. $y^2 - 5y + 6 = 0$

II. $2x^2 + 3x - 5 = 0$

x 1. y

x 2. y

x 3. y or the relationship cannot be established

x 4. y

x 5. y

Correct Option - 2

Que. 48 In the following question, one or two equation(s) is/are given. On their basis you have to determine the relation between x and y and then give answer

I. $10x^2 - 7x + 1 = 0$

II. $35y^2 - 12y + 1 = 0$

1. $x < y$

2. $x > y$

3. $x \leq y$

4. $x \geq y$

5. $x = y$

Correct Option - 4

Que. 49 In the given question, two equations numbered I and II are given. You have to solve both the equations and mark the appropriate answer-

I. $3x^2 - 7x + 2 = 0$

II. $2y^2 - 11y + 15 = 0$

1. $x < y$

2. $x > y$

3. $x \leq y$

4. $x \geq y$

5. $x = y$ or relationship between x and y cannot be established.

Correct Option - 1

Que. 50 In the given question, two equations numbered I and II are given. You have to solve both the equations and mark the appropriate answer

I. $x^2 - 19x + 84 = 0$

II. $y^2 - 25y + 156 = 0$

1. $x > y$

2. $x < y$

3. $x \geq y$

4. $x \leq y$

5. $x = y$ or relation cannot be established

Correct Option - 4

Que. 51

Directions: The following line graph shows the demand and production of different companies.

Production and demand of different companies

The demand of No of company P is what percent of the production of company R?

1. 20%
2. $133\frac{3}{3}\%$
3. 30%
4. $266\frac{6}{3}\%$
5. None of these

Correct Option - 4

Que. 52

What is the ratio of the companies having more demand than production to those having more production than demand?

1. 3 : 2
2. 2 : 3
3. 1 : 4
4. 4 : 1
5. None of these

Correct Option - 2

Que. 53

The production of company Q is approximately what percent of the demand of company S?

1. 161%
2. $165\frac{3}{3}\%$
3. 162%
4. 164%
5. None of these

Correct Option - 4

Que. 54

Find the average production of all the companies?

1. 2800
2. 300
3. 0
4. 340
5. 0

4. 3600
5. None of these

Correct Option - 3

Que. 55 Find the difference between the production of company P and T and the demand of company R and Q?

1. 1000
2. 1100
3. 1300
4. 900
5. None of these

Correct Option - 5

Que. 56 Find the wrong term in the given series:
80, 70, 55, 35, 10, -20, -50

1. 70
2. -20
3. 10
4. -50
5. None

Correct Option - 4

Que. 57 Find the wrong term in the given series.
1, 11, 35, 79, 124, 251

1. 35
2. 79
3. 12
4. 4
5. 25

Correct Option - 3

11

Que. 58 Find the wrong term in the series.
0, 4, 18, 48, 100, 177, 294

1. 0
2. 18
3. 48
4. 10
5. 0

Correct Option - 5

7

Que. 59 Find the odd term out in the series.
361, 355, 348, 323, 274, 153

1. 15
2. 3
3. 32
- 3
- 35
- 5

4. 34

5. 8

Correct Option - 3

1

Que. 60 Find the wrong term in the following series.

6, 91, 584, 2935, 11756, 35277, 70558

1. 91

2. 70558

3. 584

4. 2935

5. 35277

Correct Option - 3

Que. 61 Rohit borrowed Rs. 18000 from Rashmi for 2 years at simple interest of rate 15%. Rohit lent this sum to Raunak at the same rate for the same time but at compound interest. Find the profit earned by Rohit in this transaction.

1. Rs. 400

2. Rs. 405

3. Rs. 410

4. Rs. 415

5. Rs. 450

Correct Option - 2

Que. 62 Amit starts a business with Rs.20,000 and Trisha joins the business 5 months later with an investment of Rs.25,000. After a year, they earn a profit of Rs.83,000. Find the shares of Amit and Trisha.

1. 48000, 34000

2. 38000, 35000

3. 48000, 35000

4. 37000, 38000

5. 35000, 42000

Correct Option - 3

Que. 63 Find the percentage change in area if the length of the rectangle is increased by 10% and breadth is decreased by 20%.

1. 12% decrease

2. 12 % increase

3. 8% decrease

4. 8% increase

5. Answer not known

Correct Option - 1

Que. 64 A milkman having 60 liters mixture of milk and water in ratio of 5 : 1.If he added 10 liters milk and 5 liters water in the mixture then what will be the new ratio of milk and water?

1. 4 : 1

2. 5 : 3

3. 4 : 2
4. 3 : 4
5. 4 : 3

Correct Option - 1

Que. 65 The average weight of with 40 students was 52 kg. 3 students with average weight 20 left and 5 students with average weight 25 joined the class. Find the new average weight of the class?

1. 43
2. 51
3. $43\frac{5}{42}$
4. $51\frac{3}{42}$
5. 45

Correct Option - 4

Que. 66 Direction: Read the following table carefully and answer the questions given bellow it.

The table shows the number of students in four different colleges who have enrolled for two courses i.e., Master's Degree and Bachelor's Degree.

Colleges	Total students enrolled for the courses (Master's Degree + Bachelor's Degree)	Percentage of students who have enrolled for the Master's Degree
A	280	4
B	0	5
C	250	6
D	0	5

What is the total number of students of all the colleges together?

1. 12,400
2. 11,000
3. 10,400
4. 14,200
5. 10,110

Correct Option - 3

Que. 67 The number of students enrolled for Bachelor's degree in college D is what percent of the total number of students in college B?

1. 47.3%
2. 45%
3. 55%
4. 62.5%
5. 51.2%

Correct Option - 5

Que. 68

What is the total number of students who have enrolled for Bachelor's degree in colleges B, C and D together?

1. 3115
2. 2990
3. 3120
4. 3105
5. 3110

Correct Option - 4

Que. 69 What is the difference between the number of students enrolled in Master's degree of college B and C together and the number of students enrolled in Bachelor's degree of college A and C together?

1. 64
2. 85
3. 75
4. 79
5. 80

Correct Option - 2

Que. 70 What is the ratio of the number of students of college A and C taken together to the number of students of college B and D taken together?

1. 47 : 57
2. 33 : 46
3. 53 : 51
4. 61 : 44
5. 49 : 57

Correct Option - 1

Que. 71 The present ages of Shailesh and Ramesh are in the ratio of 14 : 17 respectively. Six years from now, their ages will be in the ratio of 17 : 20 respectively. What is Ramesh's present age?

1. 17 years
2. 51 years
3. 34 years
4. 28 years
5. None of these

Correct Option - 3

Que. 72 The speed of a boat in still water is 6 km/h. Time taken by the boat to cover a certain distance upstream is 3 hours more than the time taken to cover the same distance downstream. If the speed of the stream is 2 km/h, then what is the total distance (upstream and downstream) covered by the boat?

1. 24 km
2. 18 km
3. 36 km
4. 48 km
5. 46 km

Correct Option - 4

Que. 73 Train A crosses a stationary train B in 90 seconds and a pole in 30 seconds with the same speed. The length of the train A is 270 metres. What is the length of the stationary train B?

1. 540 metres
2. 270 metres
3. 810 metres
4. Cannot be determined
5. None of these

Correct Option - 1

Que. 74 Pipes A, B and C together can fill a tank in 6 hours. Pipes A and B together can fill the tank in 9 hours. If pipes A, B and C are opened simultaneously, and after 3 hours, pipes A and B are closed, then how many hours will C alone require to fill the remaining tank?

1. 6
